

## Please Meet Ashley: Survivor and Volunteer

Ashley was...

17 years old when she was involved in a motor vehicle accident. For over 20 years, the recovery process has been difficult and life changing for Ashley, but she has her family as a strong support system who have stood by her side through all of the challenges she has faced.

After a car accident 20 years ago...

Ashley now realizes that the accident put things in perspective for her, as she learned to be thankful for things that she once took for granted; including sports, driving and being able to work full time.

In addition...

To participate in many of BIAWW's survivor programs, Ashley is a volunteer at her church, board member at her condo and one of the founding members of ABISS, an advocacy group for individuals with brain injury.

Ashley hopes...

To share her experience with others, to show that you can get through trauma and become a stronger person because of it.

Ashley says...

"One of the things I like so much about the cardmaking is that it is a win for everyone. We enjoy making the cards and others enjoy purchasing and giving them. It is so awesome that some of the funds will be used to support individuals with brain injury to be able to go to Camp dawn. It's a way to feel part of something that is making a difference"

With the Covid-19 pandemic we need your help more than ever. Donate to the BIAWW Today! <http://www.biaww.org/donate.html>
