

Please Meet Donna: Survivor and Volunteer

Donna is...

A mom, grandma, friend, a fused glass artist and a mom to Peanut. She loves sewing and gardening and is keenly interested in helping people make connections and end isolation.

After a car accident 22 years ago...

Donna has had to deal with chronic pain, PTSD, and depression.

In addition...

To participating in many of BIAWW's survivor programs, Donna volunteers with the City of Waterloo as a Neighborhood Block Connector and as a Partner in Planting. She pretty much will volunteer when called on anytime with the BIAWW.

Donna credits the BIAWW...

With ending the isolation, and allowing opportunities to get involved in the community with programs supporting BIAWW Member since 2002.

Donna says...

"There is a sense of pride selling the cards to the general public. The joy, hope, and humor is contagious by being part of a group."

With the Covid-19 pandemic we need your help more than ever. Donate to the BIAWW Today! <http://www.biaww.org/donate.html>
